COVERS RICHEST GOLD AREA IN CALIFORNIA

Vol. 12, No. 84. The County Seat Paper NEVADA CITY, CALIFORNIA The Gold Center FRIDAY, OCTOBER 28, 1938

From the Californian, March 15, 1848:
The Liberty of the Press consists in the right to publish the Truth, with good motives and for justifiable ends. — Alexander Hamilton

## Thinking Out Loud

By H. M. L.

Every voter in Nevada County, regardless of what party he or she may be enrolled in, should remember when in the polling booths a week from next Tuesday, that Nevada County's mining industry narrowly escaped being wrecked by the CIO affiliate. The voters should remember that every one of the so-called Democratic candidates, Olson, Patterson and Downey are backed 100 per cent by the various organizations of the CIO in California. They should remember that behind the scenes Harry Bridges, whose activity in San Francisco has reduced exports and imports of that great port by 50 per cent, is behind those three candidates 100 per cent. They should remember that the great rubber manufacturing city of Akron, Ohio, where the CIO wreckers were permitted to work their will, has suffered a reduction in employment of 50,000 workers. Where once 75,000 were employed there, only 25,000 are now employed.

Even if voters in Nevada County do not altogether approve of the present state administration, even if they feel that there are faults in our state government that should have been corrected, it would seem to this writer they should still hesitate to turn the state administration over to men who would owe their election to the support of the CIO and Harry Bridges.

On the positive side of the argument for Governor Merriam there are these things to be said in his favor: He has balanced the budget and kept our ship of state on an even keel in extremely troublesome times. He has refused to be bullied or badgered into favoring one labor faction against another. He has met the "direct action" of communistic groups with the direct enforcement of the law whenever it devolved upon him to do so. This is something the yellow-bellied governors of Ohio and Michigan, notably failed to do. Of his administration of social welfare and relief, Miss Ruth Turner, now on the State Welfare Board, a registered Democrat states: "He has appointed Mr. Archibald Young, a Democrat of Pasadena, chairman of the state board, a man in whom everyone at all conversant with the state's social problems has the utmost confidence. Governor Merriam has strictly adhered to the principal of no political interference with the administration of social welfare measures. Indeed the entire administration of Governor Merriam has been non-partisan in the sense that he has always placed the welfare of California first in whatever administrative act he may have been called upon to perform.

If the argument here presented for retaining Governor Merriam in office fails to convince, then we ask the reader to answer these questions:

Do you believe that Culbert L. Olson, who was chairman of Upton Sinclair's Epic campaign in 1934 and who publicly swallowed the entire Production-for-use program hook, line and sinker, has repented his ways now that he has become Candidate Olson?

If so, do you know that in both the 1935 and 1937 legislative sessions he persistently fought to foist the whole ruinous scheme on the state even to the extent of holding up appropriation bills thereby threatening to halt all the vital functions of government.

—that he endeavored to incorporate Production-for-Use in the national Democratic platform,

—that he still advocates it under the thinly disguised names of "cooperative self-help" and "cooperative farming," which would put the state into direct competition with industry and agriculture,

—that in his primary campaign he reiterated his adherence to the 1934 Epic platform?

Four years ago, Olson anticipated that the then existing $30,000,000 deficit would mount to $130,000,000. Today there is no deficit.

Would you exchange an administration that has brought the state out of the red into the black for a mess of ill-conceived, half-baked, visionary promises?

Is a man who blows hot and cold on the iniquitous "thirty dollars every Thursday" scheme the kind of governor you want?

Dodging an issue, which raises false hopes in old people, may be "smart politics" but is it sound statesmanship?

You have seen shipping driven from San Francisco docks. Do you think the way to bring the ships back is to elect a CIO governor?

Do you think new industries, bringing new payrolls, will risk coming to California under such a regime?

**Do you want government of John L. Lewis, for the CIO, by Harry Bridges?**

## HI COACH TALKS TO ROTARY CLUB ON SWIMMING

Mr. Frank T. Martin, high school coach, was the guest speaker at yesterday's Rotary luncheon. Chester Scheemer was chairman of the day. Mr. Martin gave an illustrated lecture on swimming and diving. When a young Australian named Cavill invented the Australian crawl in 1910 a new impetus was given to swimming, and later to diving, as a sport, Mr. Martin said.

Prior to that time swimming was regarded as good exercise, but speed and grace were not specially sought. Much of the swimming was on the side and was slow. This method is still taught because it is needed in life saving. In the old fashioned methods, the head was kept above water for both inhaling and exhaling, the knees were bent, and there was much waste motion. The Australian crawl brought stream lining to swimming, and speed in the water became a definite goal.

Mr. Martin illustrated his lecture with motion pictures taken of several of the Olympic swimming winners. The pictures were taken in the beautiful pool of the Ambassador Hotel in Los Angeles. Diving in which physical grace is the quality upon which all diving competition is judged, was also beautifully illustrated by feats of outstanding athletes in the film shown by Mr. Martin.

## WOMAN BUYING BABY CLOTHES GOES TO TOWN

A neatly dressed well mannered woman of about 40 years of age came to the twin cities last Saturday and in her quiet, friendly, and homey way she managed to cash checks in business houses that later turned out to be worthless. Her story of a home and domestic life impressed the merchants and business men who cashed her phoney checks. But later it was found the 17 odd checks she cashed in Grass Valley and Nevada City were not identical in any instance in regard to name of payee or endorser. Responsibile citizens names of the two communities appeared on the signature lines.

In most cases the bogus paper was for a sum of $27.50 each. The woman turned out to be a comparative stranger and county officers, and the bank detectives are searching for this woman with a glib story. Checks in Grass Valley were drawn on the Bank of America in Nevada City while checks in Grass Valley were on the Bank of America in Nevada City. In summing up the amount Wednesday it was found the sum was about $400.

Her purchases were of childrens underwear, and baby clothes and threw the unsuspecting salesman off his guard.

## CAR WRECKED IN WET ROAD SKID

While starting to return home from a trip to Cisco Grove Sunday Warren Goldsmith and brother, Guino Goldsmith, received a cut chin and broken collar bone, respectively as their car skidded on wet oily pavement. It had just started to rain when they started and the car skidded into a truck and a car following was mixed up in the crash. Mrs. Goldsmith miraculously escaped uninjured. The Goldsmith car is a complete wreck and the truck and other car are damaged to some extent. Damages are covered by insurance Mr. and Mrs. Goldsmith carried.

## PRES. SPROUL AGAINST STATE POUND ACT

BERKELEY, Oct. 27.—Strongly urging the defeat of the so-called State Humane Pound Act, President Robert Gordon Sproul of the University of California has written the California Society for the Promotion of Medical Research, terming the proposed act a definite and continuing obstacle to the conservation and increase of the minds and bodies of the people of the state. President Sproul said:

"It is my hope that the efforts of the California Society for the Promotion of Medical Research to make public the dangers of the proposed State Humane Pound Act will lead to its overwhelming defeat by the voters of California.

"It is obvious that the passage of this bill will increase the cost of necessary disease prevention and control by authorized research centers. At a time when the tax burden for public welfare activities is a real problem to the average citizen this fact cannot be dismissed too lightly. But adding unnecessary costs to health protection is only one of many faults in the provisions of the proposed pound law.

"The real objection to the bill is that it attempts to enact antivivisection legislation which the people and the legislature have already refused to accept, by concealing its real purpose under a cloak of sentiment. Every dog owner, including myself, is ready to do everything to protect these friends of mankind from needless exploitation. But the proposed bill appears to be less concerned with the protection of dogs than it is with handicapping medical progress."

## NEVADA CITY DELEGATION ENJOYS BUCK STEW

Fred Garrison, highway superintendent and Mrs. Garrison were host and hostess to the annual buck stew of the Peach Bowl chapter of state employees association in Marysville last evening. About 400 members and their families were present for the delicious dinner and dance. The Misses Helen Butz and Delores Hendricks of Nevada City took part in the program.

Those from Nevada City making the trip were: Mr. and Mrs. Fred Garrison, Mr. and Mrs. Joe Young, Mr. and Mrs. Havey, Mr. and Mrs. Walter Butz and family, Mr. and Mrs. Harold Hendricks and daughter, Mrs. James Penrose, Mrs. Beamer and Mr. and Mrs. S. C. Hieronimus.

## WINTER CAMP FOR SCOUTS TO OPEN DEC. 27

Tahoe Area Council Scout winter camp at Camp Pahatsi has been set for December 27th to 31st by the executive board at its recent meeting. Plans are being made to take care of a larger number than the 73 who attended last year for the 5 day period. Bulletins will be issued shortly to the scouts through their scoutmasters concerning the camp.

A merit badge in skiing just released by the National Boy Scout office should add to the yearly increase in snow sport interest among the scouts of the area. A fine skiing merit badge pamphlet has been issued giving expert instruction in ski technic. The book has been highly commended by local skiers.

Reservations are being made by the local scout troops for the use of Camp Pahatsi on week ends during the snow season and present interest indicates last years record of 560 campers during the winter season will be exceeded. One week end has been reserved for senior scouts.

### ROSEBUD LUNCHEON

The ladies Aid Society of the Methodist church held their Rosebud luncheon and party Wednesday afternoon with 60 members present for the delightful affair. A program of music and speaking was enjoyed at the table and during the afternoon. The Rose Buds of the past year were identified and new ones drawn.

### ROAD IMPROVEMENTS

Supervisor C. S. Arbogast and crew are draining, ditching and grading roads in the Cement Hill, Lake Vera, Selby Flat and Ridge Road in preparation for winter.

### LIQUOR DEALERS TO MEET

The California Liquor Association will hold a luncheon meeting at the Union Hotel in Nevada City today. John Richards of Grass Valley is in charge of local arrangements.

## SUTTON RANCH SUGGESTED AS THE FAIR SITE

The fair directors of the Seventeenth Agricultural District in Nevada County will hold a meeting Friday evening. J. R. Maben, of Mabens Dairy south of Grass Valley who is familiar with fairs and exhibits from many years experience, will suggest the purchase of the Sutton ranch at Glenbrook park as a fair site. While $6.000 was allotted to the local fair this year for prizes, next year there will be prize money and also a sum of money to start purchase of a site to erect buildings for permanent county fairs.

The fair this year was for a first one unusually successful and gave a fine idea of what can be done in the way of a county fair. The time was short for gathering fruits and exhibits and it was new to the district but next year should see everyone working in earnest to display fine fruits, vegetables, livestock, ores and all other products from this area.

## DR. NAFFZIGER HEADS AMERICAN SURGEONS COL.

BERKELEY, Oct. 27. — Faculty members of the University of California have been named to the presidencies of both the organized physicians and surgeons of America and at least three other national societies. The fact that the two principal professional medical groups of the country have selected their leaders in the same year from the staff of the University of California Medical School in San Francisco is generally regarded as a particularly high compliment to the school. These leaders are Dr. Howard C. Naffziger, head of the division of surgery, who is president of the American College of Surgeons; and Dr. William J. Kerr, head of the division of medicine who is president of the American College of Physicians. Dr. Kerr also is president of the American Heart Association, made up of leading practitioners in the diseases of the heart.

On the Berkeley campus the presidency of the American Historical Association is held by Professor Frederic L. Paxson ,who is Margaret Byrne professor of United States history. The modern language association of America is headed by Professor John S. P. Tatlock of the department of English. The presidency of the American Astronomical Society is held by Dr. Robert G. Aitken, astronomer emeritus, and former director of the Lick Observatory.

NOTE: Dr. Howard C. Naffziger was born and educated in Nevada City. His parents were Mr. and Mrs. C. J. Naffziger.

## SCOUTERS WILL MEET IN ROUND TABLE TALKS

District Scout leaders "Round Table Discussions" meetings are being organized by local commissioners for monthly meetings of scouters to discuss and study troop programs and problems, according to H. A. Curnow, district chairman.

The first one of these will start Friday evening in Roseville at the Methodist church when fundamentals will be discussed under the leadership of Scout Executive Harris Ricksecker. Other meetings are being arranged for Grass Valley, Nevada City, Colfax, Lincoln and Auburn leaders. It is hoped to continue these meetings once a month throughout the year.

Mr. and Mrs. Eric Childs and Mr. and Mrs. Ken Steldand spent the week end in San Francisco. They were the guests of the San Francisco International Fish company and enjoyed a delightful party and Italian dinner on a large barge on San Francisco bay. Guests on the barge were permitted to fish. They fished for sharks.

# Elderly Pair Drowned While Lake Fishing

The body of Mrs. Jane Fouyer of Nevada City, aged 57, was recovered early Thursday morning from the waters of the Scott's Flat Irrigation District where she and her husband, Alfred C. Fouyer, met a sudden and tragic end Wednesday when the boat in which they were fishing is believed to have capsized. The body of Mr. Fouyer was found with the aid of grappling irons at 2:30 o'clock yesterday afternoon. He was 64 years of age.

Although the real cause of the mishap has not been determined Jim Williams, brother of the drowned woman, advanced the theory that judging by the extreme blueness of his sister's lips he believed that she had suffered a heart attack while out on the water, and that her husband in going to her aid had capsized the boat. Both old people were suffering from heart trouble.

Wednesday Mr. and Mrs. Fouyer had gone to their favorite fishing spot, about eight miles from town. When they failed to return home at 5 o'clock Ainsley Fouyer, their grandson, and a neighborhood chum, Frank Curry, set out for the lake to find them.

After a frantic and fruitless search the two youngsters returned to town and summoned William Fouyer, son of the couple, who immediately organized a searching party.

Powerful searchlights were used but the darkness and the rough terrain made the search difficult. The night passed without any trace of the couple or their boat being found.

But early yesterday the searchers found the body of Mrs. Fouyer floating on the surface of the lake, and near it the hat and coat of her husband, mute evidence of the still missing body.

The couple were life long residents of Nevada City. Fouyer was a member of the Foresters Lodge and the Nevada County Mine Workers Protective League. They were the parents of William Fouyer, former California highway patrolman, and the grandparents of Ainsley Fouyer, Nevada City high school student.

Mrs. Fouyer was a sister of Ann Rule of Grass Valley, Esther Camozzy and George P. Williams both of Ellensburg, Washington, and Frank, Jim, Charles and John Williams, all of Nevada City. Fouyer leaves one sister, Mrs. Lena Caveness of San Francisco.

Funeral services will probably be held Sunday afternoon at the Holmes Funeral Home.

## BASKET BALL TEAMS FORMING

Basket ball season is on at the Nevada City elementary school and Principal Cecil Klee has arranged for about five teams. The A team is Notre Dame, two B teams are Sparks and Gaels, and the two C teams are Flying Eagle and the last one Lightweights or Feathers.

In a game on the school grounds Monday evening the Sparks won over the Gaels by a score of 17 to 4. The Sparks team is composed of Warren Smith, Bob Elkus, Umbert Soga, Edmond Kan ,James Morrison, while the Gaels are, John Alderson, Leland Smith, George Demas, Bob Moulton, Ben Anderson. Other games are to be played and as teams are defeated the contests will continue taking the best one and with a selection of five or six subs such a game will be played with the high school team. The winning team will also be issued block letters.

## NEVADA CITY'S SHARE OF LIQUOR FEES IS $2,421

SACRAMENTO, Oct. 27.—Distribution of $1,998,155.51 to cities and counties as their share of liquor fees for licenses issued during the first six month period of 1938, was announced today by Richard E. Collins, member of the state board of equalization for the third district.

The allocatoin represents 50 per cent of the total fees earned during the first half of the year. Collections from this source amounted to $3,996,311.02, the state's half of which goes into the general fund.

On the basis of actual licenses issued, Nevada county will receive a total of $11,546, of which $5,409 will be paid to the unincorporated areas and $2,421 to Nevada City.

The allocation is one of the largest ever announced by the board for a six month period. The total distribution to the cities and counties represents an increase of $550,895.76 over the allocation of $1,447,259.75 made for the first half of 1937.

The current year is the second period during which the allocations have been made twice a year instead of annually. The change in the law, effective in 1937, was made at the request of members of the board of equalization so that these funds would not remain idle for such a long period.

Of the current allocation, the greatest amount was to be distributed to Los Angeles County and its cities with a total of $553,207.03. The city and county of San Francisco was second with $381,435.85. Alpine, the smallest county in the state received $62.50.

## MOONEY URGES VOTE FOR OLSON

SAN FRANCISCO, Oct. 27.—Tom Mooney, from his cell in San Quentin, it was discovered yesterday, is raising funds to support Culbert Olson for governor. The state's prisoner, under the disappointment of the recent adverse decision of the United States Supreme Court, urges his supporters to give as liberally as they can to the Olson campaign, since his only immediate hope of freedom lies in Olson's election. Mooney's appeal is made in a letter from California State Prison, dated October 19.

The Mooney letter also attacks the majority members of the Supreme Court. "That fight," he says "must go on with renewed vigor and intensity until the six remaining of the original "nine old men" are finally and ultimately removed from this most powerful tribune, which can nullify the will of the entire people of this nation."

The Mooney letter makes the astonishing admission that his defense committee had extended $5,000 in the primary campaign to nominate Olson.

**"My defense committee is penniless and bankrupt," says the letter. "In debt for more than $5,000 to our printer for our pre-primary efforts to nominate State Senator Culbert L. Olson as the Democratic candidate for governor. We are now able to keep our office open only by virtue of a small personal loan that I secured. Never before were we so desperately in need of your help, which in the past you have given so generously."**

## DOWNEY FOR BANCROFT CLUB IS ORGANIZED

DOWNEY, Calif., Oct. 27.—This live little Los Angeles county city today gave the state its biggest chuckle of the political campaign, when it formed a—

"Downey for Bancroft Club".

Walter M. Booth, who organzed the club, said that the City of Downey didn't want the world to think it had anything to do with Sheridan ("Upside") Downey, the 'Ham and Eggs" man who is running against Phillip Bancroft, Walnut Creek farmer, for the United States Senate.

Booth invited Bancroft to address the "Downey for Bancroft Club."

### CONTRACTOR HURT

E. A. Roberts employed on building construction at the new camp site at Scotts Flat east of Nevada City, suffered severe injury to his head when he fell striking nails in a timber. Roberts was taken to Landis Clinic where an X-ray showed his condition to be good last evening.

## California La Crackpotte

To the world at large, California has become the birthplace of so-called crackpot ideas. Proposition 25, the 30-Thursday pension plan on the November 8th ballot, is in this class and has done much to impress the world that Californians aren't all there.

Significant is the manner in which the national magazines as well as the press of other states have watched and printed reports on the campaign against the so-called pension plan which would mean ruin for the state if not defeated.

Latest to announce an article would appear upon it was the staid, conservative Saturday Evening Post. The article appears under the title "California Votes on Utopia."

Other major national magazines have published articles along the same line, Liberty using Upton Sinclair's article that California would become a state of stamp lickers.

All this publicity in national magazines is unusual and unusually poor advertising for a state that for years has been spending thousands of dollars to attract solid manufacturing concerns. It puts fear in the hearts of these employers of thousands that such a plan might some day become law in the state and rather than take a chance on any such crazy schemes they had better remain in the east and middlewest.

It is significant that the Associated Press, non-partisan news gathering organization has followed this plan so closely, realizing its national import. Newspapers in all parts of the country have carried these stories. From Canada have come reports of how a similar plan was tried and failed.

To get down to bedrock, there remains only one thing that California can do in anyway to counteract this harmful advertising and prove that we actually are not a state of crackpots and that is to vote "No" on 25 Thursday, November 8th.—Contributed.

## The Last Call

On November 8th, if you exercise your rights as American citizens, and we hope you will, you will go to the polls and vote your conscience on 25 statewide ballot measures as well as for a number of state and county officers.

This newspaper, along with scores of organizations and hundreds of other newspapers, has been particularly interested in at least one proposition on the ballot you will mark November 8th. That proposition is No. 20, the sales tax repeal-single tax initiative.

We have consistently urged that a "no" vote be cast on 20. We make this last call to you today to do just that.

Proposition 20, the single tax, in one form or another has appeared on our state election ballots six times before this. Six times we have defeated it. The seventh will be lucky for all of us.

The proposal is simply this—The sales tax, and a few other taxes now in effect which raise in the neighborhood of $102,000,000 annually, would be repealed. A single tax on land would be substituted.

That in itself doesn't sound like such a threat to your welfare but it is, for—

Wherever the single tax, even in modified form, has been attempted it has failed miserably. Land has been confiscated by the state for non-payment of the high taxes. This confiscation placed the burden upon the few who still managed to hold their land. Eventually, the system broke down because it did not produce the revenue. People simply couldn't pay.

In this breaking down process, these things resulted: Schools closed because there just wasn't the money to keep them open, the ordinary functions of government were halted too for the same reason, relief for those unfortunates such as blind, orphans, unemployed, and aged, ended.

Looking at such a dismal picture from the safe side of this measure might seem too great an exaggeration. You might be inclined to believe that oft used term "it can't happen here." But cold logic will tell you that it can happen here and that it will happen here unless you cast a "no" vote on 20, November 8th.

This is our last call for your "no" vote. We believe you will be voting for your future welfare.—Contributed.

## DR. HUMMELT WILL ADDRESS P. T. ASSN.

The Nevada City Elementary P. T. A. will meet this afternoon at 2:45 at the elementary school. A fine program has been planned. Dr. B. W. Hummelt will talk on "Your Child and Health." Mrs. DeWitt Nelson will discuss some of the amendments which will be on the November ballot. Musical numbers will be rendered by pupils of Mrs. Marian Libby.

Mr. and Mrs. Charles Meyers came up from Niles and spent several days at their home on Gold Flat. While here Mr. Meyers burned about the wooded section of his property as a fire protection.

PREPARED BY THE RED CROSS VISITING NURSE

### STOP THAT COLD

Common colds and most of the similar maladies are unquestionably contagious diseases spread by direct contact from one person to another. They may and do occur at any season of the year, but are most prevalent in January and February, in April and May, and in September and October.

Every person suffers an average of two colds a year (there are a few exceptions.) During the height of the seasons for colds, probably everyone is exposed to the infection. Those who escape owe their immunity to their vital resistance and this is due largely to the foods they eat plus adequate rest.

Those foods rich in vitamin A seem to aid in developing certain protective powers against cold. To be sure diet alone cannot be guaranteed to stop a cold, but it helps to do so and the right foods certainly have a beneficial effect in reducing the duration and sometimes the severity of colds. These foods are milk, butter, cream, cod liver oil, eggs, fruits, and green and yellow vegetables.

If you wish to avoid common colds keep your head cool and your feet warm, build up your bodily vigor and vital resistance by means of a proper diet, sufficient rest, and keep away from those unfortunate persons with colds, who have not perhaps followed these simple rules.

If in spite of all precautions, you come down with a cold, go to bed, keep warm, take alkaline drinks, as milk and the juices of citrus fruits, and provide yourself with a supply of disposable handkerchiefs. It is wise to summon your doctor, who will prescribe the necessary drugs to alleviate fever and make you more comfortable. His services are important to you, to guard against dangerous complications of colds such as pnenmonia, sinus troubles and others.

Great care must be taken to protect young infants from colds as their powers of resistance are slight. All children with colds should be isolated from well children, as brothers and sisters, and should be kept out of school. This is important not only for the welfare of the sufferer but as a protection for others.

Many of the communicable diseases of childhood begin with symptoms of common colds, such as measles, chicken pox, scarlet fever and whooping cough.

The visiting nurse service is a health service that gives nursing care in people's homes at fees the average can afford and available to others at part pay or free basis.

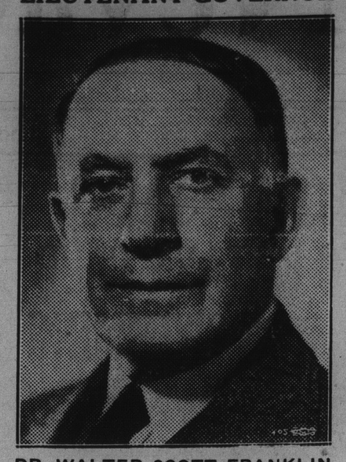
The service is available by calling the city halls in either Grass Valley or Nevada City, Grass Valley 31, or Nevada City 27-W.

### STAMP MILL BURNS

The five stamp mill on the Hot Water mine property of W. L. Baker near Graniteville burned to the ground Tuesday with an estimated property loss of $5,000. Origin of the fire could not be determined. There were no fire fighting facilities available and nothing could be done to save the mill.

W. L. Baker and J. L. Jackson have an option on the property and employ three men. The ore from the mine yields approximately an ounce of gold per ton on a vein that runs from one to three feet in width.

CANDIDATE FOR LIEUTENANT GOVERNOR



DR. WALTER SCOTT FRANKLIN

## Attack On Radicalism Swells Franklin Support

Probably never before have two such wholly opposite figures so dominated a California political campaign, as Harry Bridges, the alien labor agitator, and Walter Scott Franklin, Republican candidate for lieutenant governor.

By dramatic comparison of the Communistic program of Bridges and the radical record of Ellis E. Patterson, the Bridges candidate for the state post, Dr. Franklin has focused the issue squarely between the cause of Americanism and his opponent's espousal of "the anti-American and foreign 'isms' of Harry Bridges."

Never having sought public office before, and admitting he is "not a politician", the doctor's blunt, plain-spoken convictions have attracted support that cut through party lines and finally won the backing of candidates who opposed him in the primary race. He condemned "obviously radical leadership in the CIO" and gained the respect of responsible labor leaders. He denounced the "ham and egg" and "single tax" schemes, and was hailed by a vast and worried army of taxpayers. His terse denunciation of Patterson's proposal to open the schools to Communistic meetings, too, hit a responsive chord.

According to Franklin's campaign headquarters, the battle cry of his followers: "The shadow of Harry Bridges must be removed from the State Capitol"—"apparently has struck the fancy of Democrats, Republicans and Progressives alike, and will send Franklin to preside over the California Senate next session."

## HALT THIS *Plunge into* SQUANDERMANIA!

Proposition No. 13 on your November ballot is a brazen attempt to let down the bars to wholesale public borrowings which would mean . . . .

### *Staggering Debt and New Tax Burdens*

This dangerous proposal would **abolish the basic safeguard requiring a two-thirds vote for bond issues!**

It makes it **easier to get into debt, but harder to get out!**

It would permit the issuance of revenue bonds, IN ANY AMOUNT, by a bare majority of those actually going to the polls. In reality, it would mean that **any district, city or county could be plunged** into debt by a SMALL MINORITY, as only a fraction of the registered vote usually turns out for a bond election.

**You can't afford it. Your neighbors can't afford it. No city or district in California can afford it!**

## VOTE "NO!" ON NO. 13

VOTE FOR YOURSELF *by Electing*

# Philip Bancroft

*Fighting Farmer . . . Level-headed Executive*

## U. S. SENATOR

Do something for yourself — to better those conditions of State and Nation which have hurt us all.

Do it by electing Philip Bancroft United States Senator!

Philip Bancroft raises ***your*** voice against the ***causes*** of depression—against Utopian schemes whether for State or Nation — against vicious trade treaties that permit foreign nations to dump $2 worth of their produce here, while buying only $1 worth of ours.

He raises ***your*** voice against un-American and subversive radical activities—against National Labor Relations Board favoritism to the C.I.O. and its prejudice against the A. F. of L. and employers.

He raises ***your*** voice in ***favor*** of prosperity soundly founded—in favor of labor peace and impartial labor administration—in favor of free enterprise in business and agriculture—in favor of non-political relief, as relief and not as a career—in favor of tariff protection for American agriculture, industry and labor—in favor of America!

**HIRAM JOHNSON SAYS:**

"Of course I am for Philip Bancroft for Senator! . . . I am for him because he has honesty, ability, and, above all, courage. . . . In a political world of deceit and hypocrisy he stands forth a new kind of campaigner, who believes in what he says and says it without equivocation."

(Signed) HIRAM W. JOHNSON.

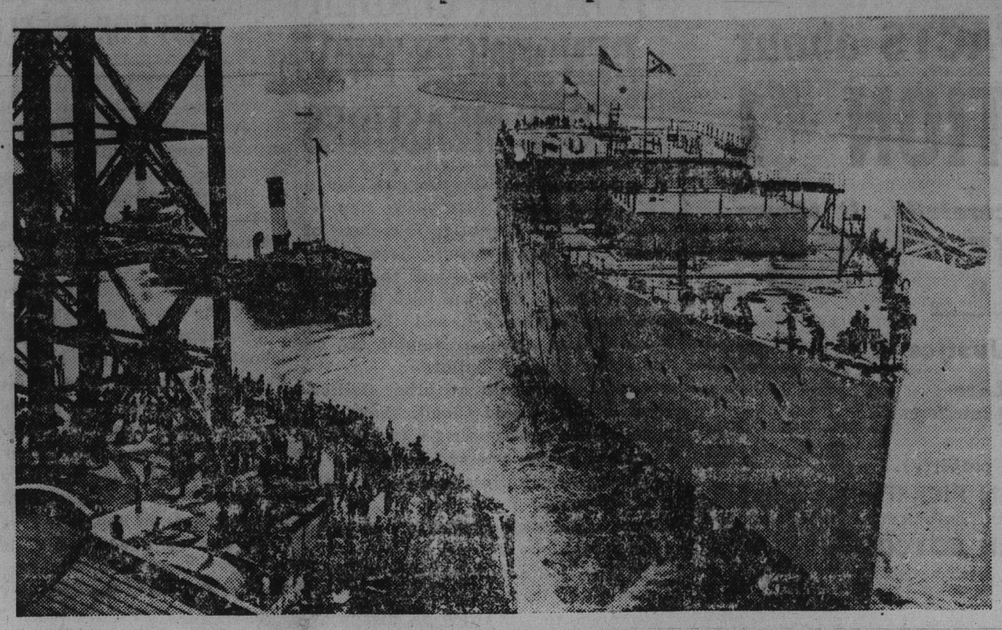
## Submarine Depot Ship for Britain



Emphasizing Britain's determination to be prepared for war eventualities, the new H. M. S. Forth, a submarine depot ship, built at a cost of $10,000,000, is launched at Clydebank, Scotland. She was built alongside the giant liner Queen Elizabeth, now under construction.

## Typhoon and Flood Visit Japan's Capital

More than a hundred were counted dead, thousands of homes demolished and damage extended into the millions when a typhoon visited Tokyo recently. Downtown shopping districts felt the full force of the typhoon, and heavy storms caused overflowing of nearby rivers, bringing flood waters into crowded areas. These Tokyo residents made use of mat-boats and other improvised means of getting about.

## RETAIL DEALERS 35,000 STRONG BACK LABOR ACT

SAN FRANCISCO, Oct. 27.—California retail trade groups representing 35,000 retail dealers in all lines of business have unanimously endorsed State Proposition No. 1, Labor Initiative Act, according to William T. Hadeler, secretary of the California Retail Grocers and Merchants Association, and chairman of the retailers conference which recently met at Atascadero. At that meeting, according to Hadeler, the retail trade groups took coordinated action resulting in unanimous approval of Proposition No. 1.

Besides the California Retail Grocers and Merchants Association, and its twenty three affiliated local associations, the endorsing groups included the following:

California Retail Hardware Dealers Assn.. Allied Automotive Industries of California, Northern California Retail Druggists Assn., Southern California Retail Druggists Assn., Affiliated Cigar Stores of California, Retail Petroleum Dealers of California.

Each of the 35,000 members of the groups listed will work aggressively for a "yes" vote on Proposition No. 1, it was announced.

To a long list of groups and organizations endorsing the Labor Initiative, Proposition No. 1, has been added that of the California Retail Trade group. Sponsors of the measure hail the endorsement of the 35,000 retailers as one of the most important events in the campaign to secure a "yes" vote for No. 1. Already endorsed overwhelmingly by the Commonwealth Club of California, by practically all agricultral groups, chambers of commerce and Southern Californians, Inc., Proposition No. 1 would seem to have the kind of backing it takes to enact into law a labor regulatory measure designed to take the rowdyism out of industrial controversy.

**P. T. A. MEMBERSHIP DRIVE**

In a check of membership thermometers in the drive for P. T. A. membership at the Washington grammar school those registering a "neck and neck" race are the rooms of Miss Gertrude Goyne and Mrs. M. Warnecke. The membership drive closes today. Several class mothers are planning Hallowe'en parties for their groups of children.

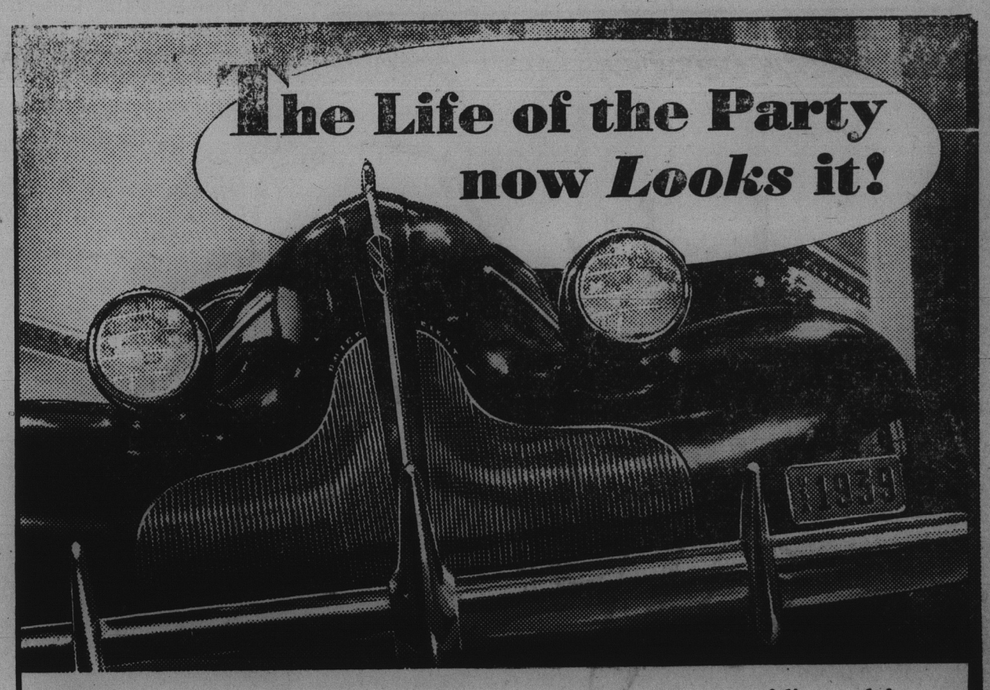
...ribe for The Nugget.



WHEN you've got something mighty good and *know* it, it's not easy to pass it up even for something better!

There's a whale of a temptation to play it safe, to coast along a while, when you're riding such a vote of confidence as we've had this year.

We had ample evidence from the start that our past season's good Buick was the life of the 1938 party.

Right through the darkest months it paced the industry in sales, setting a bright example that shone like a sudden sun smiling through the rain.

But itching in our heads and on our drawing boards were ideas.

Ideas that *started* with practical things like better cooling and more efficient aerodynamics and a wider field of vision for the driver and his folks.

Ideas that *wouldn't* stand still — that budded, burgeoned, flowered full into gorgeous new beauty of line and form and action.

Ideas that promised to re-pattern motor car design for the next half decade or more!

Now, the price of progress is daring to make good things better—even if you've got a winner to start with. Buick's whole come-back has been based on that.

We *couldn't* refuse to climb while empty rungs on the ladder beckoned us up!

So the life of the party now looks it. And you'll see a Buick for 1939 of very different pattern, a car fit to fix the fashion for many a long year to come.

★ ★ ★ ★ ★

**NO OTHER CAR IN THE WORLD HAS ALL THESE FEATURES**

## Here are the FACTS about

# PROPOSITION #1

***Read this statement carefully. It shows why you should* VOTE "YES"**

(STATEWIDE ELECTION—NOV. 8)

***Note the Fairness and Justice of this Act:***

**WORKERS CAN ORGANIZE—**
(and bargain collectively without interference).

**WORKERS CAN STRIKE—**
(but no sit-downs, nor seizures of property).

**WORKERS ON STRIKE CAN PICKET—**
(but with reasonable regulations and only peaceful methods).

**WORKERS ON STRIKE CAN BOYCOTT—**
(but only their own employer).

***BUT NOBODY CAN—***
interfere with free use of the highways and wharves by farmers or anyone else.

**NOBODY CAN** carry on MASS picketing.

**NOBODY CAN** use coercion or intimidation to force free citizens to join unions, or not join them, or other un-American practices.

**NOBODY CAN** use the excuse of "hot cargo" for boycotting or picketing because a union official declares a commodity "unfair."

**NOBODY CAN** boycott those with whom they have no quarrel. In brief — no secondary boycotts.

**PROPOSITION #1 IS RIGHT BECAUSE IT IS FAIR**

Read this list of some of the representative organizations that have studied Proposition #1 and have approved it officially because it is fair to labor, fair to employers and fair to the people of California:

Commonwealth Club of California • Southern Californians, Inc. • State Farm Bureau Federation • Associated Farmers • Agricultural Council of California • California Division of the Farmers Educational and Cooperative Union of America • State Chamber of Commerce • State Junior Chamber of Commerce • California Wool Growers' Association • State Executive Board of the State Federation of Women's Clubs • Stockton Chamber of Commerce • Lodi Chamber of Commerce • San Francisco Chamber of Commerce • Redlands Chamber of Commerce • San Francisco Junior Chamber of Commerce • Dairy Lunch and Cafeteria Owners' Association • Northern California Hotelmen's Association • San Francisco Hotel Association • Good Government of San Francisco, Inc. • Retail Bakers' Association of San Francisco, Inc. • Lafayette Society • Steuben Society

# TEACHER LEADER DENOUNCES TWO VOTE MEASURES

SAN FRANCISCO, Oct. 27.—In a statement issued here today Roy W. Cloud, State Executive Secretary of the California Teachers Association, urged upon teachers and the public generally the defeat of both the single tax, Number 20, and the "Ham and Eggs" measure, Number 25, on the November 8 ballot.

"Teachers, with all other Californit citizens," said Cloud, "have facing them on November 8 twenty-five proposals, the passage or defeat of which may vitally affect the welfare of the state.

"Teachers are especially concerned with Numbers 20 and 25.

"The California Teachers Association State Council of Education has gone on record twice as disapproving proposal Number 20, known as the 'Taxation Initiative Constitutional Amendment.' This is the single tax proposal and specifically repeals the sales tax, now one of the largest revenue producers in the state.

"The sales tax raises approximately $8,000,000 each month, a large part of the state's total revenues. While the sales tax is not a school tax, its revenues go into the state general fund and the general fund in turn furnishes money for school purposes. If the sales tax is repealed, the state must again tax real property (home-sites, farms, ranches, etc.) in order that it may have sufficient funds for the support of the various governmental departments.

"Neither the ownership of land nor homes demonstrates ability to pay taxes. The sales tax, with its broad base, is easily collected. All who are interested in the welfare of California are urged to vote against the repeal of the sales tax and the imposing of the single tax".

On the "Ham and Egg" plan, amendment Number 25, Cloud said:

"This proposal specifies that at least half the salary must be paid in warrants. There is no attempt made to state how the other half shall be paid. Number 25 states specifically that the warrants may be used to pay taxes. As all teachers' salaries are based on funds received from taxes it is impossible to know where the actual money will come from to pay the other half of the teachers salary.

"We believe every California teacher should consider very thoughtfully the problems which will arise when, instead of receiving actual money for services, he will receive at least half, and perhaps more than half, of his salary in "Ham and Egg" warrants. This situation would in effect amount to a drastic cut in salary."

# NEVADA CITY GIRL TOPS LIST FOR JR. CLERKS

Gertrude P. Williams of Nevada City placed first on the eligible list for junior clerk as a result of the examinations recently held in Chico, according to announcements made by the state personnel board. David E. Dunn of Marysville won honor by placing first on the list for men junior clerks.

The recent examinations conducted by the state personnel board at Chico State College and the high school attracted 116 residents of Chico and the surrounding area who filed 225 applications in the eight classifications open to competition. As would be expected Chico residents furnished the largest number of competitors in the examinations, but residents of the following cities were also included among the competitors: Yuba City, Willows, Grass Valley, Oroville, Marysville, Orland, Gridley. Live Oak, Meridian, Nevada City, Biggs, Colusa, Durham, Maxwell, Palermo, Paradise, Sutter, Tudor and Wheatland.

### STEEL FOR HOSPITAL

Huge trucks started Wednesday hauling structural steel to the site of the Memorial Hospital which will be located between Nevada City and Grass Valley and near the golf course. Great quantities of the immense steel beams will be used and the walls and floors of the $250,000 hospital will also be of steel. The Judson-Pacific Steel Company of San Francisco was awarded the contract for supplying the steel.

Recent work consisted of holes sunk into the ground to secure rock foundation for many steel and concrete pillars on which the many faceted building will stand. Concrete pouring has started and it will continue as long as weather permits.

It is believed the structural work will be completed by spring or early summer.

# From Aunt Sarah

Here's a refrigerator pumpkin pie which will keep the family happy and give you added minutes of freedom on a busy holiday morning, for the cooking jobs which demand your undivided attention.

**Pumpkin Chiffon Pie**
(Makes One 10-inch Pie)

2 tablespoons gelatin.
¼ cup cold water.
3 eggs.
1 cup sugar.
1½ cups pumpkin (strained)
½ cup milk.
½ teaspoon salt.
½ teaspoon ginger.
½ teaspoon cinnamon.
¼ teaspoon nutmeg.
¼ teaspoon clove.

Soak gelatin in cold water for 5 minutes. Separate yolks and whites of eggs. Beat yolks until light, and combine with half of the sugar, the strained pumpkin, milk, salt, and spices. Cook over hot water until the mixture thickens, stirring constantly. Remove from fire, add gelatin, and stir until dissolved. Cool. When the mixture thickens, beat the egg whites until stiff but not dry, and gradually beat in the remaining sugar. Fold into the pumpkin. Pour into baked pie shell and chill thoroughly before serving.

This pumpkin pie is made, quite sensibly, the day before its to be served and stored in a refrigerator.

**Flavor and appearance of this pie,** however, are so nearly like that of the **old-fashioned kind, that even** dyed-in-the-wool enthusiasts won't detect the difference.

**EL MADRID CAFE**
CHICKEN TAMALES
Chilli Beans, Short Orders. All Kinds of Drinks

## DANCES STIMULATE STUDY, U. C. FINDS

BERKELEY, Oct. 27.—The effort of the University of California to induce "wall flowers" and "stay-aways" to participate in the social life of the institution, as an aid to intellectual fitness, was met with considerable success this semester, according to Professor Frank L. Kleeberger, chairman of the department of physical education. Scores of young men who heretofore did not seem to be able to stop tripping over their partners' feet, and young women who were all too conscious of their dancing faults and supposed lack of popularity, are finding themselves in the beginners' dancing classes, Dr. Kleeberger says.

Classoom instruction in popular dancing to overcome the embarrassment of clumsy first attempts or the determination to stay away from social affairs altogether, is now engaging the attention of some 200 males students and scores of young women twice each week and many of these are finding a much greater interest in university affairs generally, and a stimlulus to study. The movement was inaugurated by the University Mothers' Club some years ago in the endeavor to provide social dances for the men students who could not afford corsages, taxicabs and dance tickets, and the girl students who found the "formal" beyond the reach of the collegiate purse.

**"Private Property—No Trespassing" signs for sale at the Nugget Office.**

# Social Events

## Camptonville Club Women Entertain

CAMPTONVILLE, Oct. 27.—The Womens Club entertained the men last Thursday evening with a big turkey dinner served in the banquet hall of the Meek Mercantile Company Building on Main street. The hall was decorated in Hallowe'en harvest time colors, orange and black, the table being garnished with grapes and apples.

Following the dinner, the party left the supper hall and went across the street to the Mayo building where the rest of the evening was spent in playing cards. Those lucky in cards and receiving the first prize were A. E. Flagg and Mrs. Janet Morehead, Mr and Mrs. Samuel F. Price won the booby prize. The first prize was a large pumpkin pie baked in a pyrex plate.

## Mrs. Howard Burr Entertains at Luncheon

Mrs. Howard Burr entertained at a dainty one o'clock luncheon and party Wednesday afternoon. Mrs. Rose Jones proved quite interesting in telling fortunes in tea leaves, marvelous futures being forecast out for everyone present. Bright autumn flowers decorated the table. Fancy work was the diversion of the afternoon.

Present for the happy affair were Mrs. Ira Andrews, Mrs. Alfred Haddy, Mrs. Rose Jones, Mrs. Ed Martine and Mrs. Bessie Wales of Grass Valley and hostess.

## BOY SCOUTS IN NEVADA CITY ARE FORTUNATE

"The Boy Scouts of the Donner Area are very fortunate in having the beautiful Camp Pahatsi for winter and summer recreational trips." Harris Ricksecker, scout executive for the area, remarked recently and, "scouts of Nevada City are very fortunate in having the Community Hall in Pioneer Hall for their local use."

Prior to the time the hall was leased from the city by the scouts, they had to do as many other troops do, that is, meet from house to house. That meant that there never was any regular meeting place, and there was not sufficient room and privacy. Now they can have an attractive home in which they can take pride, and have sufficient room for their ceremonial in its full form. Horace Curnow, chairman of the scout cimmittee for Nevada City states that for an additional three hundred dollars the hall can be equipped with a modern kitchen so that it can be used for community social gatherings. Curnow hopes that the response to this year's reuest for the funds will be sufficient, not only to defray current running expenses for scout activities, but to make this further development in the community hall. The hall is used likewise by the Campire Girls and the Cub Scouts.

One could hardly imagine a more desirable lodge than that at Camp Pahatsi—spacious, well built and comfortable buildings located on the edge of the beautiful Lake Pahatsi high up in the Sierras and within easy reach of Highway 40. A week there is a high light in the lives of boys and girls who are fortunate enough to attend one of the camps. Winter trips on skis are becoming popular, and Ricksecker says that the National Organization has announced a merit badge for skiing. This will no doubt encourage the scouts to gain proficiency in this healthful and zestful winter sport.

## HI STUDENTS IN TESTS WIN TO HONOR ROLL

Announcement was made by Miss Margaret Rector yesterday, who is adviser to the California Scholarship Federation, that winners to places on the honor roll for the first six weeks are as follows:

California Scholarship Federation.

Seniors — Jean Martz, Barbara Phariss.

Juniors—Patricia Arbogast, Adrianne Barnhart.

Sophomores—Betty Lou Kroung, Ruth Mitchell.

Freshmen—None.

Honor Roll: Seniors— None.

Juniors—Jane Bennett, Bill Rickard.

Sophomores—Mary Libbey, James McCraney, Elsie Schreiber.

Freshmen — Elizabeth Lavalley, Billie Keller, Helen Yuen.

## CAMPTONVILLE

CAMPTONVILLE, Oct. 27.—Mr. and Mrs. Fred C. Kendall came up from Hammonton to spend the week end at their summer home here.

George Figley, telephone dispatcher for the forest service left a few days ago for the south, the job being over.

Misses Lesta Joubert and Mary Hackley returned Sunday from a week end visit at San Francisco.

Mrs. Anna Kervin, came up from near Los Angeles and is visiting her son and daughter in law, Mr. and Mrs. M. Kervin for a few days. The Kervin family lived here about three years before moving south and enjoy returning to visit their many friends and relatives.

### SHERIFF BUYS RESIDENCE

Sheriff and Mrs. Carl J. Tobiassen purchased a six room house at Nevada City's northeastern city limits about two years ago. There are two or three acres of ground on the property that are quite hilly as it is in the area hydraulicked off the base of the old Manzanita Diggings. The ground is being leveled about the house. Their plans are to add two or three rooms to the building later on.

## SONJA HENIE COMING IN "LUCKY STAR" FILM

A book of magic written 78 years ago provided Hollywood movie makers with one of their most ingenious camera tricks in the filming of Sonja Henie's latest 20th Century-Fox triumph "My Lucky Star".

The big skating number in the picture which opens Sunday at the Nevada Theatre is the "Alice in Wonderlaand" ice ballet. Director Roy Del Ruth wanted to show Sonja, as Alice, going through the mirror into Wonderland and have the camera follow her.

The stunt could have been done by double exposure, split-screen or stop-camera methods. But the camera was required to keep moving, the mirror had to be a real one. It had to show Sonja's reflection and still allow her and the camera to pass through it.

It was Cameraman Johnny Mescall who found the solution in a rare volume of theatrical illusions of magic, published in 1860, and the trick — with modern variations — is now as jealously guarded a secret as any in the late Houdini's famous repertoire.

### SUICIDE ATTEMPT

CAMPTONVILLE, Oct. 27.—Constable John M. Jaynes was notified Sunday afternoon that a man had committed suicide on the Middle Yuba river. Upon investigation, Jaynes found Tommy Thomas, a sniper on the Middle Yuba, above the Schnellmann ranch, in a critical condition in his cabin. Becoming despondent, Thomas tried to end his life by stabbing himself in the back and chest with a paring knife. He was found lying on his bed in a blood soaked blanket, the paring knife covered with blood on a table near by. Jaynes took Thomas to the County Hospital at Marysville for treatment.

## LEGAL NOTICES

**SUMMONS**

**IN THE SUPERIOR COURT OF NEVADA COUNTY, STATE OF CALIFORNIA.**

OMER SIMMONS AND SARAH E. SIMMONS, Plaintiffs,
vs.
JOHN J. ENRIGHT, ALSO ALL OTHER PERSONS UNKNOWN CLAIMING ANY RIGHT, TITLE, ESTATE, LIEN OR INTEREST IN THE REAL PROPERTY DESCRIBED IN THE COMPLAINT ADVERSE TO PLAINTIFFS' OWNERSHIP OR ANY CLOUD UPON PLAINTIFFS' TITLE THERETO, Defendants.

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETINGS TO,

John J. Enright, and "also all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiffs' ownership or any cloud upon plaintiffs' title thereto."

YOU and each of you are hereby directed to appear and answer the complaint in an action entitled as above, brought against you in the Superior Court of the County of Nevada, State of California, within ten days after service upon you of this summons, if served within this county, or within thirty days if served elsewhere.

AND you are hereby notified that unless you appear and answer as above required, said plaintiffs will take judgment against you for any money or damage demanded in the complaint as arising from contract, or they will apply to the court for any other relief demanded in the complaint.

SAID action is brought to quiet title of plaintiffs to the real property described in the complaint on file in said action and hereinafter described, to determine the adverse claims of said defendants, and each of them, and of all unknown persons to, and clouds upon, the title to said real property pursuant to the provisions of Sections 749, 750 and 751 of the Code of Civil Procedure of California, said property being situated in the County of Nevada, State of California, to-wit:

Lot 13, in Block 28, of Nevada City, according to the Official Map thereof made by Bradley in 1869.

GIVEN under my hand and seal of said court this 5th day of October, 1938.

(Seal)

R. N. McCORMACK, Clerk.
By N. McCormack, Jr., Deputy.
Oct. 7, 14, 21, 28 and Nov. 4.

## AMATEUR PHOTOGRAPHER WIN PRIZE RIBBONS

Oscar Odegaarde, Jr., and Myers Mobley have two displays each of colored photographs in Dickerman's drug store windows that are attracting much attention. They won ribbons from the Sixth Annual Enlargement Exhibit of the Bear Photo Service. Two yellow ribbons, a blue and a red were the awards.

Young Odegarrde won honorable mention on "Correspondence" and "Siesta", class portrait, won second award. Myers L. Mobley has two views of "Reeds Comanche Kid on Point," beautiful pointer dog that carry honorable mention.

## Red Cross Nurses Aid Million Sick

Red Cross public health nurses made more than one million visits to or on behalf of the sick during the fiscal year 1937-38.

The patients live in mountain communities, on islands off the coast, in isolated swamp regions, and in crowded industrial sections. During the same period the nurses inspected 559,187 school children for health defects in cooperation with local physicians, and gave instructions in home hygiene and care of the sick to 58,754 mothers and young girls.

## Red Cross Volunteers Assist War Veterans

Red Cross workers in chapters, in hospitals and on posts of the Army, Navy, Coast Guard, and Marine Corps, assisted 122,355 active service men or veterans or their families during the past 12 months.

Red Cross service to these men included such personal help as letter-writing, shopping and recreational leadership, but it also included financial assistance to their dependents, help in locating missing members of their families, and assistance in filing necessary applications for pensions, disability pay, hospitalization, or for discharge from active service because of home needs.

The average number of men assisted by Red Cross workers each month was 18,790, according to a recent report.

## "ORPHANS OF THE STORM"

Fleeing a tornado near Clyde, Texas, parents of these babies were killed, their automobile tossed a quarter-mile away. Hours later a telephone lineman heard a child's whimper in a roadside ditch. There he found 3-year-old Jesse Donald Rutledge, water up to his chin, holding his 3-months-old brother Daryl's head above water. Relatives being unable to care for the orphans, Red Cross workers arranged a maintenance fund to support them until they are 16. A Texas college promised scholarships and ranchmen started a herd of cattle for their benefit. The Red Cross will help the boys make adjustments as they grow older.

## NEV. CITY AND GRASS VALLEY P. T. A. MEET

The district meeting of the P. T. A. was held in Grass Valley Wednesday and proved most instructive and educational to the many in attendance. Those from Nevada City attending were. Mrs. John Muscardini, president of the high school P. T. A. and Mrs. W. P. Lee, president of the Elementary School P. T. A., Mrs. Mithcell, Mrs. Tillie Schmidt, Mrs C. J. Tobiassen, Mrs. John Milanovich, Mrs. George Keller, Mrs. Charles Stephens, Mrs. J. R. Bell, Mrs. E. R. Champie. Mrs. Leland Smith and Mrs. Poole.

American Red Cross Roll Call Poster for 1938.

## Red Cross Seeks Cut In Accident Toll

### 1,725,406 First Aiders Trained Since 1910

Cognizant of tremendous losses in human lives and of permanent injuries resulting from accidents in homes, on farms and highways, and around industrial plants as well as in the basement workshop, officials of the American Red Cross have been directing a systematic fight against what they term "this economic waste."

As part of this nation-wide effort to reduce deaths and permanent injuries from accidents, a recent statement from Red Cross headquarters in Washington reports that during the past 12 months certificates have been granted to 295,028 persons completing courses in the administration of Red Cross first aid.

Holders of these certificates have followed detailed courses of study and have been taught how to splint fractured limbs, stop flow of blood, treat poison sufferers, care for victims of heat, electric shock, and handle other common emergency situations. The courses emphasize methods of caring for patients until professional medical aid can be summoned to scenes of accidents.

Since 1910, the report reveals, 1,725,406 persons have received this training from qualified Red Cross instructors, and at the present time 20,429 persons are qualified to give such instruction.

Bringing help nearer scenes of possible accident, 2,454 emergency first aid stations have been established in strategic locations on principal highways throughout the nation, operators of the stations receiving the prescribed Red Cross instructions and maintaining full first aid equipment on the spot.

Conveniently placed, they also maintain up-to-date lists of available doctors and ambulance services pledged in advance to cooperate with Red Cross first aiders in preventing deaths and permanent injuries that so frequently result from automobile accidents.

Mobile first aid units also have been established in cooperation with state highway and police departments, operators of public utility vehicles and others frequenting highways, operators of such units also receiving the prescribed Red Cross courses in first aid.

To cut the number of persons losing their lives through drowning while swimming, the Red Cross has redoubled efforts to train as many persons as possible in life saving methods. During the past year 88,150 persons received certificates upon completion of courses. Since 1914, 884,649 persons have been trained in Red Cross life saving methods, including thousands of persons in CCC camps, beach patrolmen, camp instructors, and school boys and girls.

Carrying the fight onto farms and into homes, a campaign to eliminate accidents caused by careless habits and faulty equipment last year resulted in self-checks being made in 10,000,000 American homes through cooperation of children in school, women's clubs, farm organizations, and other groups. The 3,700 Red Cross chapters and their branches in every county are cooperating in this national effort to end needless pain and suffering resulting from such accidents.

These efforts to lessen such appalling tolls of human lives and usefulness are made possible through memberships in the Red Cross. The annual Roll Call will be held between November 11 and Thanksgiving Day, when all Americans are asked to join or renew their affiliation to ensure continuation of accident prevention measures.

**Join the Red Cross Chapter in your community during the Roll Call, November 11 to 24.**

## Disasters Strike 41 States During Year

### Red Cross Aids 420,000 Persons Following Catastrophes

That the past year has not been an easy one for the American Red Cross is shown in a recent report listing disasters necessitating Red Cross relief throughout the United States during the past twelve months.

The report reveals that 129 domestic disasters called for Red Cross aid in 247 counties of 41 states, and that assistance was given to 420,000 persons who were disaster victims.

"That this has been a very active year is obvious when one compares this year's operations with the average of 92 disasters requiring Red Cross aid annually for the past 15 years," Chairman Norman H. Davis said in commenting on the Red Cross Disaster Relief Service report.

These catastrophes included cloudbursts, cyclones, epidemics, fires, floods, forest fires, hailstorms, mine explosions, a school bus accident, a shipwreck, tornadoes, typhoons, and wind storms.

"Disaster relief was the first humanitarian work of the American Red Cross after its organization in 1881," Mr. Davis said. "In the ensuing 57 years the flag of the Red Cross has flown upon every scene of major disaster in the United States. The Red Cross has carried relief—food, clothing, shelter, medical aid, rehabilitation of homes and families—to more than 2,200 scenes of disaster at home and abroad, and has expended over $140,000,000 contributed by the American public in this work of mercy."

The Red Cross policies of relief, the national chairman pointed out, have been established over a period of years through actual experience of its workers in the field. Relief is given on the basis of need of sufferers—not of losses. Loans, he pointed out, are never made, but relief is a gift from the Red Cross in the name of its members and contributors to its work.

"It would not be possible for the Red Cross to carry out such widespread relief activities without the help of thousands of volunteer workers," Mr. Davis said. "Volunteers are the mainstay of the organization, and in the past year's work assistance from many cooperating agencies has made it possible for us to answer the many calls for help."

While relief was being given to victims of natural catastrophes, the Red Cross was not unmindful of the necessity for preparedness plans to meet emergencies that may arise in any American community. Red Cross chapters in hundreds of counties have organized disaster preparedness committees charged with responsibility to map relief plans in advance of need, and to organize resources of communities to prevent duplication of effort and waste of materials when calls for help are received.

These plans are proving especially advantageous in localities subject to frequent floods, tornadoes, or hurricanes, and actual tests of such planning have demonstrated the necessity for such measures.

"The administration of such relief for disaster victims is made possible by annual memberships of millions of Americans in all walks of life," Mr. Davis pointed out. "The extent of Red Cross aid to such sufferers is entirely dependent upon unselfish sharing on the part of all of us."

Mr. and Mrs. Albert Pratti are having their home on Clark street completely remodeled and renovated inside and out.

# RECORD REVEALS OLSON VOTED NO ON TAX BILLS

SAN FRANCISCO, Oct. 27.—Senator Culbert L. Olson's claim that it was his EPIC b'oc in the legislature that developed and enacted a revenue program that balanced the state budget, was shot full of holes in a state wide radio address last night by Arlin E. Stockburger, state director of finance.

"The record of what happened in the state legislature in 1935 does not support Senator Olson's statement," Stockburger said.

"On page 6 of the Governor's budget message, under the head of 'new sources of revenue recommended,' the governor listed the personal income tax as No. 1, increased bank and corporation franchise tax as No. III, tax on intoxicating liquors as No. V., all of which were enacted."

"He also recommended other taxes which were enacted at that time, one of which, the in lieu tax, was reenacted and made a permanent part of the state tax structure at the 1937 legislature. After an experience of four years, the tax structure remains the same as that recommended by the governor in his first message.

"Senator Olson now claims that this is the tax program which he and his party put over. If this is true, the record shows they did it without Senator Olson's help"!

"He did NOT vote for the Personal Income Tax Act of 1935."

"He did NOT vote for the liquor taxes."

"He voted AGAINST the sales tax increase which was so effective in selping to balance the budget."

"He voted AGAINST the Use Tax which was passed to protect California merchants from the unfair competition of eastern merchants who were in a position to evade the sale tax."

"How can Senator Olson be so bold as to claim credit for a tax program for WHICH HE DID NOT CAST ONE FAVORABLE VOTE?

"Incidentally, it might be well to call attention to the fact, although Senator Olson has claimed to be a supporter of the 'thirty pieces of paper' every Thursday pension plan, he did NOT vote for Assembly Bill 767, which in 1935 established the $35.00 monthly old-age pension, and reduced the age limit from 70 to 65 years.

---

At a meeting of the Business and Professional Womens Club last evening Ward Sheldon, local attorney, explained the amendments which will be voted upon at the coming election, November 8. The dinner was in charge of Mrs. Miriam Skeahan and Miss Dorothy Worthley and was held at the National Hotel. Attorney Sheldon is a candidate for the office of district attorney of Nevada county.

---

Irma Hurst, high school student, won a prize for writing the best short essay on how to prevent crime. The prize was a check protector, and was awarded by W. H. Brownlee, who offered the prize following his address at the student assembly on crimes and criminals.

## HIGH SCHOOL NOTES

By JEAN MARTZ

The C. S. F. held a meeting on Wednesday, to discuss a convention to be held in Sacramento November 5. The theme of the convention is "Cooperation," and it includes all of district 16, which is a large part of northern California. The Nevada City C. S. F. wishes to learn about the activities of other schools' honor societies. C. S. F. stands for California Scholarship Federation.

---

The high school band has been practicing for the Armistice Day parade. Mr. Smith has arranged his band in marching formation, and they practice changes and drills. They have learned many snappy pieces.

---

The second issue of the Searchlight will be published Friday. Because of the illness of the editor, Alice Norton, the assistant editor, Jane Bennett, has been in charge. The paper is given free to holders of student body cards. All the students enjoy it, because it is written by the students, about the students, and published by the students.

---

The Swinks still hold the championship for girls' baseball at the high school. There are two teams: "the Flat Foot Floogies" led by Shirley Davis, and the Swinks led by Jean Martz. In the first two games played, the Swinks defeated the Flat Foot Floogies with an overwhelming score, and the defeated team was determined to make a gain on their rivals in the third game. With Rose Ponticelli pitching for the Flat Foot Floogies, and Jean Martz pitching for the Swinks, the third game began about 3:45 on Friday afternoon.

In the first two innings the Flats brought in two runs to the Swinks' four; but neither side scored in the third, fourth or fifth, after the Flats the sixth however, after the Flats were retired with no score, the Swinks went wild and brought in ten runs in the last half of the inning. In the seventh and last inning the Flats made a final attempt, but only gained one run. This ended the game with a score of 14 to 3 in favor of the Swinks. There were a number of spectators who came to see if the champions could hold their title.

## STUDY MADE BY U. C. OF BLODGETT CUT-OVER LAND

BERKELEY, Oct. 27.—The tedious business of watching a forest grow through the decades in order to determine just how it can best be utilized for posterity has been undertaken by the Division of Forestry of the University of California College of Agriculture in Blodgett Forest, an expense of 2,600 acres of cut off land, in the Sierra, 33 miles east of Auburn.

The forest was deeded to the University by the Michigan-California Lumber Company in 1933, and was named after John W. Blodgett, president of the company, who desired to have the university make experiments there which would aid the timbermen of the future in the most efficient handling of forest resources. In the five year period the University has taken exhaustive measurements of the forest growth, through which it is developing methods of estimating the quality of standing timber.

The forest was practically all logged over between 1900 and 1920, and a substantial second growth is well on its way, giving the university ideal conditions for its study. Some of this second growth is now nearly 40 years old, and it is estimated that in another 40 years it can be dedicated to timbering purposes with the possibility not only of productive timber output but of definite conservation as well.

The forest originally contained an excellent stand of Western Sierra mixed conifers—ponderosa pine, sugar pine, Douglas fir, white fir, incense cedar. The young growth is repeating these types and in addition the university is being given opportunity to study the establishment of new forest growth in several hund-

**Nevada Theatre**

FRIDAY

**BOY MEETS GIRL** Starring James Cagney and Pat O'Brien, in a howling, scrapping, rioting mix-up. Their first roaring hit together in two long years.
